Proposed Main School Entrance.

Proposed Performing Arts Center Lobby.

Proposed Performing Arts Center Entrance.

Proposed Performing Arts Center.

Project Scope:

LAN is the architect and engineer of record for the design of the Alpine School building addition. LAN worked with the Alpine Board of Education to develop the plans, specifications and cost estimates.

The proposed addition includes:

- Performing Arts Center with Auditorium
- Music Room
- 3 Small Group Instruction Rooms
- Board of Education Offices
- Main Office
- Improved Circulation Pattern

The renovation includes an expanded Media Center, new Main Offices and improved circulation. The school is built on an existing graded site which is reflected on the interior as floor levels change. The new circulation design provides complete ADA accessibility. An elevator has been added as well as ramps for access to the entire building.

Services Performed:

- Architectural Design & Documentation
- Mechanical, Electrical, & Plumbing Engineering
- Construction Administration & Observation
